(25% discount available from March 1st until March 31st 2010 only)

.... **For those, who don't have time to stop and look at the fish!**

When your dive suit is one of your "tools of the trade" and it's what you wear to work every day, you deserve the best.

Constructed entirely from Probe's 100% Super Stretch dive compression neoprene with a unique three-dimensional pattern that's shaped to your diving posture; Probe Professional suits let you to wear the 7mm or 9mm of warmth that you need, whilst allowing maximum flexibility and ease of movement that you wont get from the other brands.

Super durable knee and elbow pads, and *Liquid taped* outside seams that completely eliminate thread breakages and fraying, keeps your suit in tip-top condition and ready for your daily demands as a working diver.
